בס"ד

To whom it concern

I confirm that produce fruits marketed by "Mehadrin pri or" includes fruit marketed abroad are safely supervised by the CHIEF RABBINATE OF ISRAEL.

The validation refers to these types of fruit: citrus fruits, avocado, persimmon, dates.

For tithes secretion has set aside tithes from these fruits (no greeting) unless there is another specific individual shipment confirmation confirming that secreted contribution and dozens of these fruits.

The Kashrut certification is in accordance with the 'heter mechira' of the Chief Rabbinate of Israel for the 'Shmita' (sabbatical) year.

Respectfully,

הרב מרדכי בידרמן
מנהל המדור למצוות התלויות בארץ
